PROJECTS

# About Me

I am a Designer who is always exploring new possibilities and challenging conventional methods in design and manufacturing.

I am deeply passionate about blending design, craftsmanship, and technology to create impactful solutions.

I leverage AI and automation to streamline design workflows and drive efficiency. My core skill set includes 3D modeling, rendering, and generating detailed shop drawings, and my background in carpentry gives me a strong practical foundation.

I strive to communicate designs clearly and simply, ensuring that my drawings are easy for anyone to understand.
